

# Resolution of Support for Israel at the University of Central Florida

*We, as student leaders at the University of Central Florida, support the relationship between the United States and the State of Israel. Our support for this bond stems from the recognition that Israel is a strategic asset to the United States. Israel and the United States share the same beliefs in Democracy, freedom of conscience, and equal rights for all people, regardless of race, gender, creed, religion, or sexual orientation.*

*Israeli military technology and intelligence has been vital in saving American lives in the Middle East and instrumental in combating global terrorism. Israel's environmental stewardship serves as a leading example for other nations forging the way towards a sustainable future. Israel's crucial medical and scientific breakthroughs have significantly improved worldwide health conditions and standards of living. Israeli humanitarian aid and assistance to countries in need has proven to be a hallmark of their dedication to global prosperity. Furthermore, Israel has developed into an economic powerhouse, generating some of the most important advances in technology since its independence in 1948.*

*Based on the aforementioned reasons, we support the continuing prosperity of the US-Israel relationship as an advantageous alliance that furthers world peace and security amongst all nations.*
