IN RE: Settlement of Claims

Dear Youndy:

My client has requested that I make the following bonafide settlement offer. In making this offer, my client seeks to avoid the long legal battle that would result if the parties are unable to come to an agreement. My client believes that students and administrators belong on the campus, not in a courtroom or at depositions. This is his final effort to keep the latter from becoming a reality and to allow all the parties involved to move forward amicably. My client wants nothing more than to simply put this matter back into the hands of the students, where it belongs. The sanction of missing the public debate was severe enough.

As for the terms of the offer, my client requests that all candidates, including himself, be allowed to remain on the ballot so that the students can vote on who their next student body president will be. In return, my client will dismiss his lawsuit with prejudice. In addition to the dismissal, my client will not seek contribution from the university or any other party for attorney's fees/costs and proposes that each party be responsible for the attorney's fees/costs that each has incurred.

My client believes this result would be best for the UCF community and asks that you consider same. Moving forward, my client is also willing to work closely with the university to address the ambiguities in SGA's election statutes and procedures so that situations like this one can be avoided in the future. Thank you and I look forward to a hopefully speedy and amicable resolution of this matter.

Given the time sensitive issues of this matter, my client's offer will be revoked if not accepted by 4:30 PM this afternoon. Please communicate this offer to your clients pursuant to rule 4-1.2(a) and let me know if we can come to an agreement.

My Best Regards,

Alejandro Felce, Esq.
